

Appl. No.: 10/825,491

Amdt. Dated September 22, 2006

Response to Office Action Mailed May 23, 2006

**REMARKS:**

Applicant appreciates the time and care the examiner has taken in examining the application. In the amendments above, claims 1 and 2 have been amended to set forth the step of setting the chamfering shape of the edge surface of the lens on the position adjacent to the nose based on the obtained trace of the chamfering. Claims 5 and 6 also have been amended to incorporate this feature. Also in Claims 5 and 6, the specific step of inputting chamfering width and range, and the step of obtaining a trace, have been incorporated from original Claim 2.

Applicant requests reconsideration of the rejection of the claims in view of the distinctions in the claims over the cited prior art, which neither teaches nor suggests such features.

It is respectfully submitted that the application is in condition for prompt allowance and that all of the objections, rejections and requirements raised in the Office action have been met. Early, favorable treatment of this application is requested.

The examiner is encouraged to telephone the undersigned with any questions or comments so that efforts may be made to resolve any remaining issues.

The Commissioner is hereby authorized to charge any necessary fees, or credit any overpayment, associated with this communication, including fees for any necessary extension of time under 37 CFR §1.136(a) for filling this communication, which extension is hereby requested, to our Deposit Account No. 50-0305 of Chapman and Cutler LLP.

Respectfully submitted,
